

This PDF includes two sets of pompons.

**You will need:**

- Printed unicorn design
- Empty cereal box
- Glue stick
- Colorful yarn
- Sharp scissors

**How to:**

1. Print the PDF
2. Roughly cut the donut shape and one of the unicorn shapes, and glue them to the cereal cardboard box. Only then, cut the cardboard box to the exact shapes, and also cut the inner circles.
3. Cut the second part of the unicorn design, this time be precise, and mount it on the other side of the cardboard.
4. Place the unicorn on top of the donut shape.
5. Wrap yarn around and through the hole until you can't get any more yarn through the hole. Skip the head of the unicorn.
6. Hold the unicorn, with your thumb on the center of the hole and cut the yarn between the two pieces of cardboard.
7. Make a small space between the cardboards, slip a piece of yarn between them, and wrap the yarn tightly between the circles. Make a double knot.
8. Take the donuts shape out, and leave the unicorn head shape in place. Do this gently, not to damage the unicorn's head.
9. Give the Pompon a shake, and a trim if needed.
